RESTAURANTS & BARS

Drawing on this history, the gastronomical concept is a take on the islands' succession of powers with a modern representation of traditional Mediterranean culinary influences that date back to the Phoenician times.

Like the Maltese language itself, the menu is a taste of history derived from the island's Mediterranean-semitic roots, with a contemporary twist, created using only the finest local, seasonal produce. The menu is composed by a multi-award winning team, previously of the Villa Brasserie in St. Julian's, led by talented Chef de Cuisine Andrea Marchetti, and directed by 24-time award winning Chef and restaurateur Chris Hammett. Dining al fresco is an unforgettable experience in the warmer months, when the imposing bastions, the fortified city of Birgu, and the spectacular harbour are illuminated by traditional Festa firework displays. Patrons can enjoy the world class wines from our expansive wine cellar.

Hammetts Macina Restaurant is open for breakfast, lunch and dinner all week.

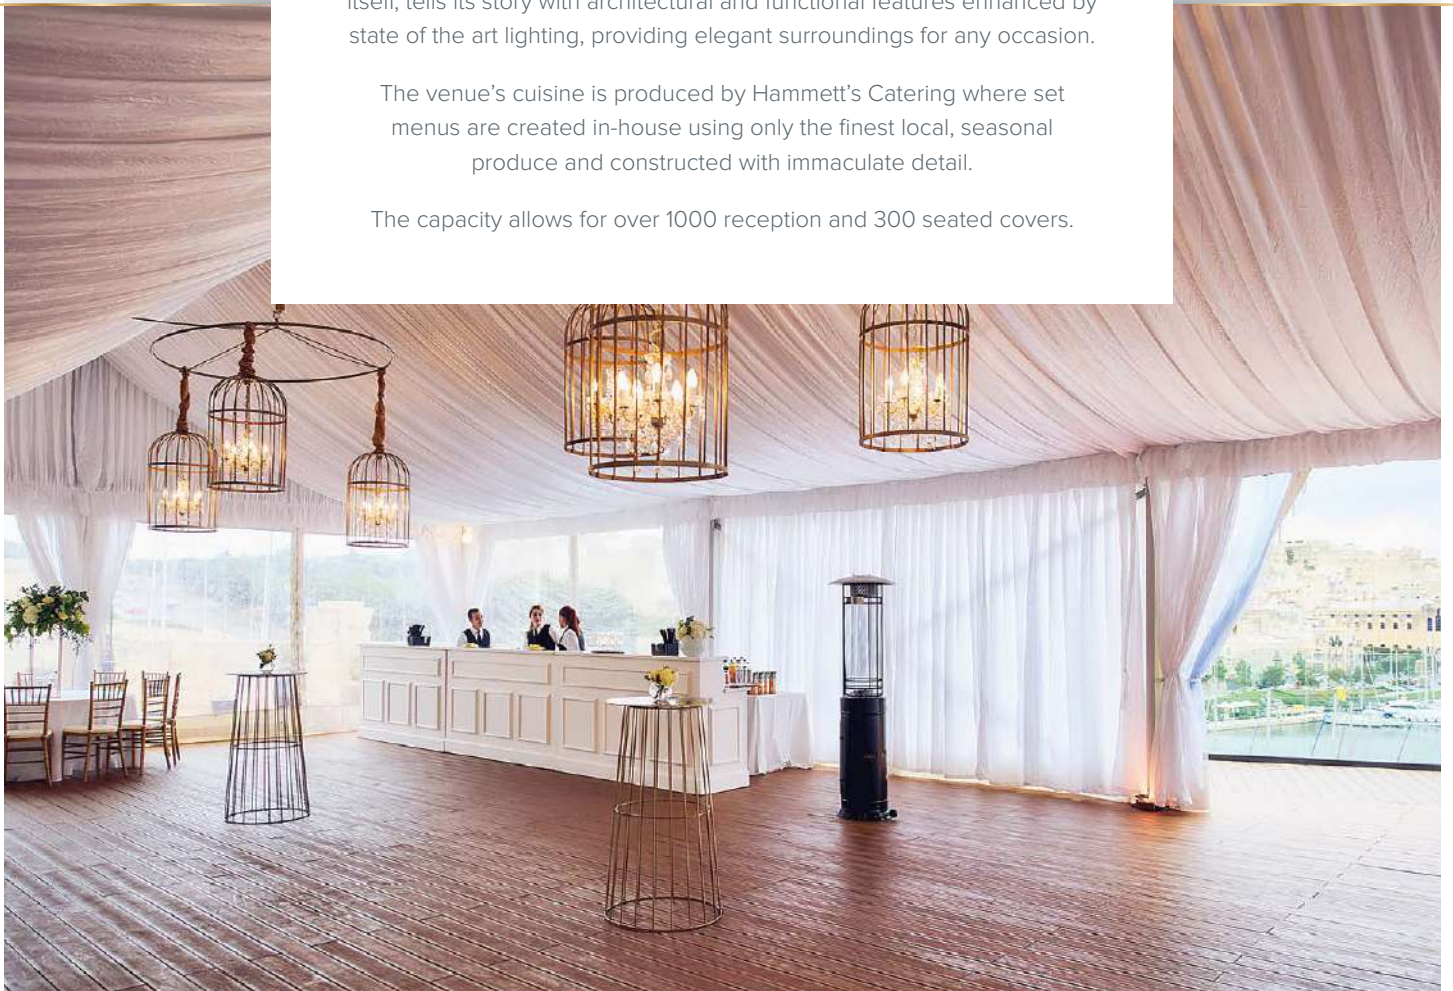

Set atop Senglea's centuries-old bastions within the Cugó Gran Macina Grand Harbour, The Sheer Bastion, from its defensive and naval origins, is today, a venue for celebrations that go down in history. Unparalleled panoramic views from the historic waters-edge building of the Grand Harbour and Birgu City give way to stunning sunsets, exquisite firework displays and illuminated views of the cities. The 16th century fortification itself, tells its story with architectural and functional features enhanced by state of the art lighting, providing elegant surroundings for any occasion.

The venue's cuisine is produced by Hammett's Catering where set menus are created in-house using only the finest local, seasonal produce and constructed with immaculate detail.

The capacity allows for over 1000 reception and 300 seated covers.
